Special Temporary Authority (STA)  
BESTA-20190312AAF

Dear Ms. Persuad:

This is in reference to the request filed on March 12, 2019. UBL requests a further extension of the STA granted on June 2, 2016, to operate ND daytime with reduced power to allow time to file an FCC Form 302 application to update all operating parameters.<sup>1</sup> In support of the request, we noted that UBL did not file the application over the past six months.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and UBL may continue to operate ND daytime using tower #3 with a maximum of 2.5 kW. UBL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310. UBL must file the application if any changes are needed, or submit an e-mail to my attention to certify the date the station resumed licensed operations per BL-20081216BLP with negligible

changes to all operating parameters.

This authority expires on **September 20, 2019**.
